

Toilet Training Workshop

Every child is different – they learn to walk and talk at different times, and to be clean and dry at different times. You know your child best so don't feel that you have to start potty training just because other people are!

Eric's Guide to Potty Training: June 2017

The Health Visiting Service offer free toilet training workshops to support and provide advice to parents and carers of children aged 0-5 years. We offer these sessions virtually. These sessions will be offered via Microsoft Teams which is a safe application used by the NHS.

These workshops explore:

- ❖ What is toilet training and the management
- ❖ Advice and support
- ❖ Developing physical skills
- ❖ Routines
- ❖ Toileting patterns
- ❖ Common problems during toilet training

To book on a session you can call our single point of access on **01922 603074**. We want to keep these sessions safe and open only to parents/carers of children with a Walsall GP. When you call, we will ask you a few details so that we can verify you and your child's details. Once you have booked a session, we will then send you an email invite to join that session nearer the time of the session. Your email will be hidden from other parents on the session.
